Dear Sir:

A night watchman has been engaged for outside service, whose references warranted his selection, and whom we trust will be acceptable to you. His name is William Van Horn, and he has among other references: an honorable discharge from the United States Government for six years' service in the Canal Zone. He was secured through the Masonic employment bureau and entered service November 9th.

Mr. Van Horn was engaged at a weekly salary of twenty-four dollars (\$24.00), of which the share of the Numismatic Society, according to the agreement, is six dollars (\$6.00) weekly. To facilitate payment it has been suggested that, if the plan meets with your approval, this Society should pay the full amount each week, rendering a statement to the Numismatic Society at the close of each month for the preceding week's services.

A Watchman's four-station clock has been purchased, and if the plan meets with your approval, we suggest that two of the stations be placed as follows: one at the west end of the Building of The American Numismatic Society on 155th Street, and the other between the north west corner and the original box on the terrace side of your building.

If you so desire, we will inspect the dials of the clock each day and report irregularities, if any.

At present the only clock which is being rung is that of The National District Telegraph Company, which is on the terrace side of our building.

The above plan would seem to insure more orderly and efficient protection. We would appreciate suggestions as to the more advantageous placing of these or additional boxes.

New York, New York

Dear Sir:

Before proceeding in the matter of the placing of the stations of the watchman's clock, we present for your consideration a proposal made at the time that the change was made in the former system of watching. It was proposed that a stair be placed on the west wall of the terrace of The American Numismatic Society, that the watchman might have ready access to the buildings of the Societies by which he is employed without going to Broadway and into the terrace by the main stairway.

Gentlemen:

The question of the stairs from the back lot to the terrace was referred to our Council, and they empowered the Acting President to confer with Mr. Huntington. I think Mr. Hailing has not yet gotten in touch with Mr. Huntington.

With regard to the stations for the watchman's clock, we have no decided preference where they should be placed, but I wrote you at the time that I thought it would be advisable to have you telephone me and make an arrangement to tour the buildings with a view to deciding on the best locations for the clocks.

Very truly yours,

Dear Sir:

We beg to inform you that we have to-day received a check in the amount of \$6.75 from the Central Hanover Bank and Trust Company. We quote from their letter as follows:

"As requested by The American Numismatic Society, we enclose herewith check as Assistant Treasurer, payable to your order for \$6.75, covering one extra week's salary of the night watchman in the month from October 27th to November 30th, 1929."

We find that in accordance with our records, the amount still due this Society for one fourth of the expense of the watchman's services is \$33.75, for the period of October 27th to November 30th, 1929. May we inquire whether the check in the amount of \$6.75, is to be applied toward this amount? If so, there will be a balance of \$27.00 due the Hispanic Society.

We trust that you will find this information correct.

Gentlemen:

We have your letter of the 24th regarding the cheque sent to you by our bank for \$6.75, and which we thought would straighten out the matter of the night watchman's salary. We are sorry that this is not so, but we are still somewhat puzzled, because our records show that we paid the following:

October 9th	\$27.00
November 6th	27.00
December 18th	28.50

This would indicate that the regular monthly remittance had been made with the exception of the extra week in the month from October 27th to November 30th. When your letter of December 14th came, in which you notified us of the increase in the watchman's salary, we assumed that \$28.50 quoted in this letter was the correct amount and we forwarded it. When, therefore, your statement for \$33.75 arrived, we assumed that all we owed was the difference between the \$27.00 remittance made in November, and the amount stated on your bill. If we are correct in just making an extra week's payment, we really should have sent the difference between the December remittance of \$28.50 and \$33.75, for that is the amount that covers the Oct. 27 to Nov. 30th month. I should be ever so much obliged to you if you would kindly send us a statement of the payments we have made to you on this account since October 1st, that being the date that I arrived at this office. Due to the building operations in the past year, the files have become rather disorderly, and I am trying to bring things back to a healthy condition. I would like to get this matter straightened out and it would help me very much if I could have a copy of what you have in your records concerning this account from through the mentioned date. Dear Sir:

Your letter of January twenty-seventh has been received. In accordance with your request we are submitting herewith a statement of the payments made by The American Numismatic Society since October 1st, 1929.

Our bill of October 1st, 1929, in the amount of \$27.00, covered the period of September first to September twenty-eighth and was paid by your check No. 6497 dated October 10th, 1929. Check No. 6524 dated November 7th, 1929 in the amount of \$27.00, covered the period of September twenty-ninth to October twenty-sixth. Check No. 6571, dated December 19th, 1929, in the amount of \$28.50, was applied to the period of December first to December twenty-eighth. Therefore our bill of December 19th, 1929, in the amount of \$33.75, for the period of October 27th, 1929 to November 30th, 1929, remains unpaid.

We hope this information will be helpful in adjusting the matter.
